About the Family

My wife and I have been happily married for 42 years with two adult children and three grandchildren, all boys. My children and I are actively involved in the church. My older son is active in apologetics having started a ministry in Alberta almost seven years ago called Faith Beyond Belief. My younger son works in a hospital and is active in music ministry.

We were about to retire after having pastored three churches for almost 25 years, but the Lord gave us a burden for the many unbelievers around us. In 2015 during a holiday in the Philippines, I thought my ministry was over. But while observing people around me, I was convicted with the thought that I was like the lost coin in one of the parables that is lost and out of circulation—wasted and useless.

I started to pray that God in His grace would still use me. From then on I started to organize a Bible study and led 20 people to Christ. This I continued until now in Calgary. I'm committed to do this.

About the Church Plant

Chestermere is a new community located about 40 kilometers east from the city of Calgary. This is a thriving city with many young couples. Most of them are working to earn a living and sometimes more than a living. Because of this, they encounter relational problems.

To initiate the church planting movement in this city and to share the vision of a new church, we are thinking to address this problem. We will start a marriage counseling seminar to encourage people to attend. We will do it slowly and prayerfully and bring these people to Christ through Bible study and discipleship. To support this vision, we are thinking to have a 15-minute radio ministry related to marriage counseling and to have a live Q & A time.
