

## Eric Hoke

ALL SAINTS CHURCH (THE BRONX)

### About the Family

Eric and Sarah Hoke are planting All Saints Church in the South Bronx of New York City. Eric and Sarah have been married for six years, living in New York City for three of them and loving all that life and ministry in a city like New York has to offer.

Sarah is a labor and delivery nurse at a hospital in uptown Manhattan, and Eric is a corporate trainer. The Hokes love biking around the city, trying new restaurants, hiking, camping, snowboarding, traveling and just spending time with family and friends. In the summer you can catch them at the beach and in the winter in the mountains in upstate New York.

Eric and Sarah live in the Port Morris neighborhood of the South Bronx.

### About the Church Plant

All Saints Church is a diverse, neighborhood-focused, gospel-centered church in and for the people of the South Bronx. Our values are to join God in His life and mission for our community, build a family one block at a time and lift up the spiritually and physically disenfranchised.

Our vision is to be part of the urban renewal of the South Bronx, the poorest congressional district in America, and partnering with the community in building a beautiful city within the city. We desire to be a church that embodies the beauty of the gospel to all residents regardless of race, class, educational attainment and socio-economic lines.

We dream of a church that looks and feels like a small slice of heaven.

Find out how you can

**Pray.**

**Participate.**

**Provide.**

#### PRAY.

–The shalom of God will permeate our inner-city community which is riddled with systemic brokenness.

–The hearts of the men and women we encounter to be softened to Christ's love.

–For God to raise up more men and women who want to join this mission.

#### PARTICIPATE.

We are presently building our partner support team of those who want to join us in reaching the most influential and one of the least churchd cities in America. We are also excited about the potential of having churches visit us for short-term missions trips as well. If you're interested, let's talk!

#### PROVIDE.

There are numerous ways to help a church plant. Please visit [sendnetwork.com/planterfunding](http://sendnetwork.com/planterfunding) for NAMB's policy on providing for church plants.
